FCC - MAILROOM

Dear Mr. Copps,

We listened to your concerns on Bill Moyer's Journal about what is going on in the news media and licensing of airwaves and we share your worries about the fairness for the future of our Fourth Estate.

Michael Powell was a rubber stamp with "JOKER" written on it. The Rupert Murdoch noose of privatizing and spinning News Corp. and Companies is his control of what we will hear and see that gets White House White Washed by who ever is there in 2009. They ALL want the money and Murdoch wants the control...of the entire telecommunications industry. I still know a terrorist when I hear one.

The internet is next...free speech.....no more. Like Cable they will bundle your news into a totally worthless package and charge you more for it. I have never had cable and now friends are telling me how awful it is. I tell them to go to the library.

The President wants to give legal immunity to the news media so they can only say nice things about him. Most of the media gave him that to start a war and most have been apologizing for their mistakes ever since.

A politician is only afraid of one thing.....an informed voter.... now they are going to do all they can to make sure that last problem is eliminated on a bi-partisan basis through FCC rules and regulations.

Thank you Mr. Copps for caring enough to stand up and speak out for the American people against the dictates of these greedy dishonorable cowards against the Constitution. We are only a banana peel away aren't we?

Sincerely,

  
Judy and Gary Rembacki
